

Free Fall Math Activity

Logic Puzzle: Four students played Free Fall. Each selected a different difficulty level. Use the clues to match the names to the difficulty.

Names: Ava, Ben, Chloe, David

Difficulties: Beginner, Moderate, Hard, Expert

1. Ava didn't choose the easiest or hardest level.
2. Ben selected a level harder than Beginner but easier than Expert.
3. Chloe and David didn't choose the same level.
4. The person who picked Hard is not David.

Use a chart to figure out the solution!
